

PVC Foam Board

PVC foam board is fabricated by creating a polymer complex between PVC and Polyurea material. These are used for interior decoration, furnishing and making switch boards, advertising boards & sign boards etc. They are mainly preferred due to their aspects such as easy cleaning & maintenance, low inflammability, excellent resistance to heat, weather apart from being light in weight and excellent electrical insulation.

The PVC foam boards, we manufacture are immensely demanded in India due to their quality make as well as their compliance with the quality norms. Hence they offer superior features such as excellent water and sound proof, excellent finishing & pleasing look as well as exceptional print-ability. We offer these qualitative products at very affordable rates.

PRODUCT FEATURES

DENSITY	0.45 0.52 0.60	SMOOTH SURFACE	100% RECYCLABLE
LENGTH x WIDTH	2440 x 1200 mm	GLUING AND LAMINATIONS	SAWING AND CUTTING
THICKNESS	5 8 11 17 18 mm	EASY INSTALLATION	IMPACT RESISTANT
		ENVIRONMENT FRIENDLY	WEATHER & AGEING RESISTANT
